### How FlexShopper Works

- 1 Shop**  
Find the product you want on [Insert Company Name].com. Check for products that have a weekly price option.
- 2 Checkout**  
Add the product to your shopping cart, and select FlexShopper as your payment method during checkout.
- 3 Apply**  
You will be temporarily redirected to FlexShopper.com. Fill out the easy, online application and get an instant spending decision.
- 4 Sign**  
Accept the simple, electronic lease agreement, and you will be redirected to [Insert Company Name].com for your order confirmation.

Call 855.353.9289, or email [help@flexshopper.com](mailto:help@flexshopper.com)

### FlexShopper Benefits

**Affordable Weekly Payments**  
Our transactions are lease-to-own - you get the products you want today, while paying affordable weekly payments over time.

**Instant Spending Limit**  
Our one-page application is so easy. It takes less than 5 minutes to complete, and you receive a decision instantly! Plus, our electronic lease agreement lets you check out in a snap!

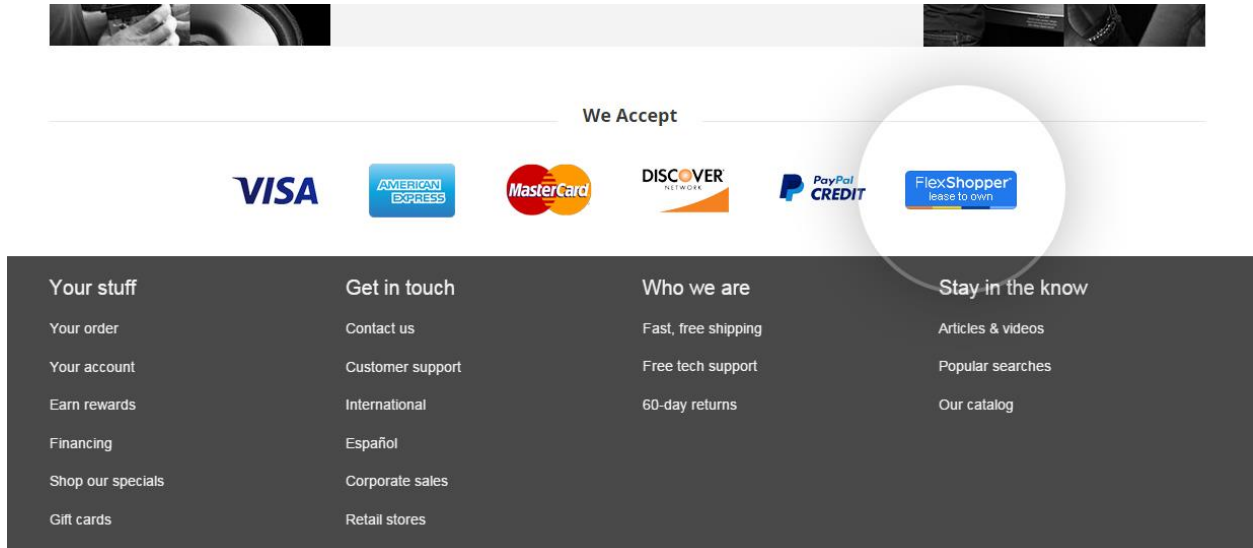

**Safe and Secure**  
Protecting your information is our top priority. Your application information is completely private & none of your financial information will ever be shared.

**Excellent Customer Service**  
Our agents are available to guide you through the entire process and answer any questions you have.

## One of the best compact TVs on two legs

There's no need to sacrifice picture quality or Internet smarts just because you're shopping for a TV with a smallish screen. Samsung's UN32J5205 offers much of the performance and capabilities of larger TVs in a compact 32" design that fits comfortably in bedrooms, dens and offices. Its 1080p screen is pinpoint-sharp so you won't miss any details.

Built-in Wi-Fi® connects this TV to your home's wireless network, giving you an easy, hassle-free way to watch your favorite streamed shows, movies, games and more. You'll find loads of movies and TV shows from reliable sources like Netflix® and Hulu Plus™, and more. And Samsung's latest AllShare™ networking feature makes it easy to tap your content whether it's on a PC or in the cloud.

## Mirroring puts a second screen in your hand

Samsung's screen mirroring feature turns your compatible smartphone, tablet or computer into a second TV screen. Whatever is playing on your TV — Netflix, or live TV — is streamed via Wi-Fi to your device as well. You can watch movies, shows and sports all around the house, and you won't miss a moment.

Use the Sanus MountFinder™ to see a list of wall-mounts that work with your specific TV.  
[Shop our selection of HDMI cables.](#)

## Product Highlights:

- 31.5" screen (measured diagonally)
- glossy screen, black bezel and Silver Y-Feet stand
- LED edge backlight for high picture contrast
- 60Hz refresh rate for blur reduction
- Internet-ready Smart TV with built-in web browser
- built-in Wi-Fi® to link to a wireless network
- AllShare™ video and music streaming from a DLNA-compatible Windows® PC
- screen mirroring — send content wirelessly from the TV to a compatible smartphone or tablet
- tuner receives over-the-air HDTV broadcasts ([antenna](#) required)
- QAM cable TV tuner (subscription required to receive cable channels — contact your local service provider for details)
- built-in down-firing speakers (10 watts x 2)
- remote control
- free downloadable apps for iOS® and Android™ let you use a compatible smartphone or tablet as a remote control

## Connections and Dimensions:

- 3 A/V inputs, including:
  - 2 HDMI
  - 1 component video (selectable component/composite)
